

# 860 Purchase Order Change Request - Buyer Initiated

Functional Group=**PC**

**Purpose:** This Draft Standard for Trial Use contains the format and establishes the data contents of the Purchase Order Change Request - Buyer Initiated Transaction Set (860) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used to provide the information required for the customary and established business and industry practice relative to a purchase order change. This transaction can be used: (1) by a buyer to request a change to a previously submitted purchase order or (2) by a buyer to confirm acceptance of a purchase order change initiated by the seller or by mutual agreement of the two parties.

	IEA	Interchange Control Trailer	M	1			Used

**Note:**

*Nordstrom Preferred Values:*

Subelement Separator..ISA16: Hex 6E  
 Element Separator: Hex 5C  
 Segment Terminator: Hex A1

*Nordstrom will send the 860 transaction when a change has been made to a value on a purchase order that was previously transmitted via EDI. Each 860 will always contain the following segments:*

```

ISA
GS
  ST
    BCH
    REF/IA
    REF/ZZ
    CTT
  SE
  GE
IEA
    
```

*Header Level Changes:*

*Other than the above listed Header segments, you will receive only those segments that contain changes to the original values. For example, you will only receive the FOB segment if one of the values in that segment has changed.*

*Detail Level Changes:*

*Nordstrom will always transmit the following detail level segments:*

```

POC
PID/08
PID/73
PID/74
    
```

*All other values will be transmitted only if changes have been made to the original values. The SDQ segment will be sent for all detail level changes except for when an item is being deleted or a PO is cancelled.*

*POC02 values:*

*The POC02 value (AI – Add Item, CA – Changes to Line Item, DI – Delete Item, PC – Price Change) which best describes the action being taken will be sent. The price change code will take precedence over all other codes. For example, if both a price change and a quantity increase have occurred, Nordstrom will send the value of PC (price change) in the POC02. If just a quantity increase has occurred, Nordstrom will send the value of CA (Change to Line Item).*

*See Appendix A at the end of this document for detailed examples.*

**\*\* 997 \*\***

*Nordstrom requires a 997 (functional Acknowledgment) be returned by the vendor within 48 hours of Nordstrom's sending the 860 document. This is very important. If Nordstrom does not receive the 997 within 48 hours, we will have to contact your company to confirm receipt of the file. This causes additional work on the part of Nordstrom. Repeated non-compliance on the 997 could result in your company receiving off set charges.*
